

NOTIFICATION OF WORKS

Footpath Renewal works at Gisborne Street East Side and Albert Street North Side, East Melbourne

Citywide, on behalf of City of Melbourne, are about to commence construction which may impact you.

Where: Gisborne Street East Side and Albert Street North Side, East Melbourne

When: Footpath works (Day Works) – Wednesday 4th October 2026 to Friday 13th November 2026, 7.00 am to 5.00 pm, weather permitting. (Works will be done in sections).

Traffic and parking changes will occur up to 24 hours prior to the commencement of the works.

Why: To renew the existing asphalt footpaths.

What we are doing: Removing the existing asphalt footpath pavements and relaying new asphalt and associated works.

How could this impact you?

While we continue to make every effort to minimise disruption and inconvenience to you, the following can be expected;

- There will be construction noise and some dust from machinery and construction vehicles for periods of time during the working hours.
- Traffic controllers will be on site to ensure that non-local traffic does not enter while works are underway
- Parking signs will be changed within 24 hours prior to construction work starting to ensure the area is clear for the necessary works to be undertaken.
- The temporary parking signs will state 'authorised council contractors excepted' and the signs will look like this:

- A reserved parking permit is a special permit issued during construction on occasion. **Please note that standard resident or other parking permits cannot be used.** Any vehicles parked in the area that do not have a reserved parking permit displayed after the parking signs have been changed may be issued an infringement notice.

Site Map: A site map can be found at the back of this letter.
